

DDI LEADERSHIP & SUPERVISORY TRAINING SERVICES

Your partner in tackling workforce challenges.

HOW WE CAN HELP

Rhode Island manufacturing businesses need leaders who can do more and be more in order to succeed in today's complex environment. They need frontline leaders with strong interpersonal skills who can get things done by mobilizing and engaging others.

More effective leadership skills means **better morale, higher retention and efficiency.**

Polaris MEP is helping manufacturers deliver frontline success through certificate courses developed by global leadership training firm DDI.

These are some of our most popular DDI courses for boosting leadership skills:

- Coaching: Moving People Forward
- Communication: Connect Through Conversation
- Resolving Workplace Conflict
- Driving Change
- Addressing Poor Performance
- Delegation: Engage and Empower People
- Setting Goals

We recommend these courses for newly installed leads, and/or leadership/management/supervisors who have never had formal leadership training.

DDI courses are proven to deliver measurable change. Through these workshops, we'll help you guide your team through challenges that have arisen (or will) in a leadership role.
